12:09:39 AM tunawarrior:
everyone's talking to us
12:10:05 AM maryrosedunton:
hah. oh totally. but ya, since the team is getting larger and larger, you can't really openly admit to that
12:10:21 AM maryrosedunton:
people freak out
12:10:24 AM tunawarrior:
if i were running the show. i'd say, we concentrate all of our efforts in building up our numbers as aggressively as we can through whatever tactics, however evil
12:10:30 AM tunawarrior:
ie, scraping myspace
12:10:33 AM maryrosedunton:
ya
12:10:38 AM tunawarrior:
but just get user metrics up, views up, keep scaling out.
12:10:47 AM tunawarrior:
then 3 months, sell it with 20m views per day and like 2m users or somethihng.
12:10:57 AM tunawarrior:
because my fear is, in 3 months.
12:11:02 AM tunawarrior:
to keep up with this growth.
12:11:05 AM tunawarrior:
things are going to get so out of control.
12:11:14 AM tunawarrior:
we're going to be pushing like 10% of the traffic that google pushes or something.
12:11:20 AM tunawarrior:
with 1/1000th the budget.
12:11:24 AM maryrosedunton:
blah
12:11:37 AM tunawarrior:
hahaha
12:11:39 AM tunawarrior:
what's that blah mean
12:11:46 AM tunawarrior:
think i'm pessimistic?
12:12:02 AM maryrosedunton:
hah...oh no, I just mean that's a crazy amount of traffic
12:12:06 AM tunawarrior:
see, i think we can sell for somewhere between $250m - $500m.
12:12:08 AM tunawarrior:

in the next 3 months.
12:12:16 AM tunawarrior:
and there *is* a potential to get
to $1b or something.
12:12:28 AM tunawarrior:
but, man, that's going to take like
2 years of hard work and probably dilution and
getting another round of funding.
12:12:29 AM maryrosedunton:
and honestly, I can't imagine we
could make enough just in advertising to cover
operating costs for something that large
12:13:56 AM tunawarrior:
ya, none of these internet companies
that get a lot of traffic with a revenue
model based on purely advertising make that much money.
12:14:02 AM tunawarrior:
thinking like friendster and even
myspace
12:14:20 AM tunawarrior:
i think it has to be a more unique
model
12:14:25 AM tunawarrior:
like google's is unique to google
12:14:38 AM tunawarrior:
i *think* we can try to pull off
something like that but still highly risky
12:14:54 AM maryrosedunton:
ya, and a lot of time, and a lot
of work.
12:16:14 AM tunawarrior:
hmm we're beating friendster nowadays
in traffic
12:18:04 AM maryrosedunton:
nice. hrm, but you know, i still
think to make us attractive to someone purchasing
us, we've got to really build up users
12:18:39 AM tunawarrior:
agreed
12:18:52 AM tunawarrior:
and user retention
12:19:05 AM tunawarrior:
in ways other than just returning
to watch more videos
12:19:26 AM maryrosedunton:
yup. the views are awesome. but I
don't know how much that's really worth to
someone at the end of the day
12:20:14 AM maryrosedunton:
oh shit. we passed flickr too
12:20:16 AM tunawarrior:
oh i personally think it's still
highly valuable

12:20:18 AM tunawarrior:
but
12:20:30 AM tunawarrior:
i think there are some easy things
we can do for the next 3 months
12:20:33 AM tunawarrior:
that will make us worth a lot more
12:20:37 AM tunawarrior:
using the huge # of uunique visitors
12:20:42 AM tunawarrior:
as a foundation to build from
12:21:37 AM maryrosedunton:
right. I'm actually pleased with
the groups stuff, I wasn't sure how that would
do
12:21:45 AM tunawarrior:
oh i love it
12:22:00 AM tunawarrior:
i didn't really take a look at it
much pre-push except in passing on the QA
playground
12:22:04 AM tunawarrior:
but i'm happy that people are using
it
12:22:10 AM maryrosedunton:
ya, totally
12:22:11 AM tunawarrior:
tthe profile stuff will be cool too
12:22:30 AM maryrosedunton:
agreed. oh, did you see my email
about the blog stuff. I do think Mike has a
good point actually
12:22:51 AM maryrosedunton:
and wonder if we want to reinvent
the wheel with all that stuff?
12:22:55 AM maryrosedunton:
(the blog stuff)
12:23:04 AM tunawarrior:
hmm
12:23:09 AM tunawarrior:
the only point that i'd contend with
is
12:23:14 AM tunawarrior:
for every person using the blog functionality
12:23:19 AM tunawarrior:
we'd be getting more user generated
content
12:23:27 AM tunawarrior:
and that person will want others
to read it, so on, that cycle
12:24:21 AM maryrosedunton:
right, but I wonder if we would gain

more users from integrating with livejournal,
instead of trying to duplicate them?
12:24:43 AM tunawarrior:
right, ya i see that point too
12:25:04 AM tunawarrior:
but the bulk of the user generated
content that these guys are spending 30+
minutes to write each day
12:25:08 AM tunawarrior:
is going to be hosted elsewhere,
hm
12:25:13 AM tunawarrior:
well, i can go either way
12:25:16 AM tunawarrior:
if it can get us to market faster
12:25:30 AM tunawarrior:
i really like the whole dropdown
to integrate address book thing
12:25:55 AM tunawarrior:
wondering if we can put rizzo on
like
12:26:04 AM tunawarrior:
permanent, small-features, going
out next week.
12:26:11 AM tunawarrior:
and he'll always be working on the
live branch.
12:26:28 AM maryrosedunton:
oh probably.
12:26:51 AM maryrosedunton:
hrm. the premium content provider
stuff though, do we want that going out on
the live branch?
12:26:58 AM maryrosedunton:
that's on rizzo's plate
12:27:03 AM tunawarrior:
hm it's pretty big, isn't it?
12:27:31 AM maryrosedunton:
actually, the flow isn't really all
that complicated. it's just rizzo needs to figure out
how to deal with the images.
12:27:46 AM tunawarrior:
ah right.
12:27:47 AM maryrosedunton:
allowing users to upload images for
their watch pages and profile
12:28:12 AM tunawarrior:
ya big problems to tackle seeing
as how we're already having so much trouble
serving out the images on our current machines.
12:28:19 AM tunawarrior:
it's funny how we have no problems
serving out videos
